Joe King Hurt In Auto Collision; Woman Is Killed

Local Man Seriously Hurt When Car Wrecked Near Sparks

Joe King, 63, prominent and long-time resident of Kings Beach and Truckee and founder of the former town, is in the Washoe Hospital at Reno with serious injuries and severe shock resulting from a headon automobile collision three miles north of Sparks Sunday about 8:30 a.m.

Beverley J. Renaker, 25, a passenger in the second machine, driven bv David H. Nelson, 24, Castle Air Force Base, was killed in the accident which occurred on the Pyramid Lake road when the Nelson car is said by investigators to have been six and a half feet over the center line in the wrong lane. Nelson was in critical condition at a Reno hospital.

King was returning to Reno, where he makes his home during the winter months, after a successful duck hunt at the Stead ranch and was accompanied only by his bird dog, which incidentally, was treated for a broken leg as a result of the crash.

The local man suffered fractures of his left shoulder and arm, his left hip and several broken ribs and is expected to be in the hospital for two or three months.

Police in Nevada were investigating a report that King lost $200 out of his wallet between the time of the crash and the time he reached the hospital. It was presumed that the cash was stolen while the victim was unconscious and awaiting the arrival of an ambulance.

Miss Renaker was a resident of Merced and the daughter of Mrs. Dorothy Renaker of Sparks, her only survivor. Funeral services were held Tuesday at Reno.

Richard Joseph of Gateway Park, long-time friend and former partner of King, visited the victim briefly Monday and reported that the latter was in excellent spirits despite the severity of his injuries.

His many friends are hopeful for a speedy recovery.

Lucas Seated As Head Of Masonic Lodge At Joint Installation Here

More than 200 Saturday attended the joint installation of officers of Truckee Lodge No. 200, F. & A. M. and Truckee Chapter No. 116, Order of Eastern Star held at the Masonic Hall in Truckee.

The installing officer was Past Master Lucas Schaffer of the Roseville Lodge, with Ballard White, Jr., inspector of the 120th Masonic District of Downieville, acting as master of ceremonies.

Eastern Star officers, headed by Mrs. Hilda Hintz, worthy matron and Dan Anderson, worthy patron, were announced in last week's Sierra Sun. They were installed by Bea Edwards, deputy grand matron of the 12th district, and Everett Moore, grand sentinel of the grand chapter.

Thomas Lucas of Kings Beach was installed as worshipful master of Truckee Lodge, succeeding C. E. Mandeville, who has successfully conducted the affairs of the lodge of the past year.

Other officers seated were R. S. Critchley, Jr., senior warden; Sam Faulkner, junior warden; Charles R. Heller, treasurer; J. D. Anderson, secretary; E. J. Stokes, chaplain; Robert Stevenson, marshal; James McIver, senior deacon; Wayne Philippi, junior deacon; E. H. Althof, senior stewart; Reginald Smart, junior stewart and I. F. Miles, tiler.

A large number of visiting Masons and Eastern Star members from throughout the district attended the gathering.

Cradle Shower Given For Mrs. Russell York

Mrs. Russell York was complimented at a cradle shower given by Mrs. Lauren Russell and Mrs. Karl Kielhofer in the home of the latter on Monday evening.

Storks predominated in the decorative effect and games were played following the opening of gifts. Friends of the honoree invited included Mesdames Jack Ellis, Al Wakefield, Gilbert Kumle, Harry Digesti, Paul Archer, Jack Neugebauer, John Finnegan, Angelo Besio, Hugh Ferdinand, Lloyd Buehler, Lorrin Ferdinand, Lloyd Everett, Kenneth Foster, Kenneth Hedlund, Chester Burns, Lew Baysinger, John Street, Omar Alexander, Robert Leamon, James Walker, Cliff Ellis, and John Gracik.

BACK FROM TRIP

Mr. and Mrs. Paul Kaspian have returned home after spending the past three weeks touring through the South, including a visit to New Orleans. During the absence of the Kaspians, Michael Stolle, local chef, was in charge of their Gateway Cafe.

20-30 Club Plans To Decorate Local Streets For Holiday

With the Christmas season only weeks away, the 20-30 Club is beginning to take action on the decoration of Truckee. The president of the club, Chet Burns, has designated Bill Johnson to attend a chamber of commerce meeting to discuss the club's ideas with them, and then to report back to the club on his findings. The Christmas decoration of the town is one of the club's many activities.

The club is the sponsor of the local Cub Scouts. Hugh Weinand notified the club that the present cub master is leaving and it is up to the 20-30 Club to find a responsible person to replace him. The problem was discussed, and the general feeling, among the members, was that a person who is the parent of a boy of the Cub Scout age, or a person that has had some experience with boys of this age, would be the most logical candidates for the position. Burns assigned Hugh Weinand, Al Koolhof and Dicks Robarts to look for such a person.

Jim Morhain recently attended a 20-30 convention in Nevada, along with the finding out the business of other 20-30 Clubs, he found, and brought back, the Truckee Club's bell.

Russ York is getting together a club basketball taem. At the last basketball practice he went through some intensive and strenuous work outs and at the next practice session he hopes to have some of the club's other members wtih him.

The Rotary Club was invited to attend the 20-30 Club's meeting last Wednesday night. Art Gerrey, from the Sierra Oxygen Company, was the guest speaker.

THREE ACCIDENTS ON HIGHWAY ARE REPORTED HERE

Margot Loewy, San Francisco, suffered a broken arm and other injuries in one of three motor vehicle accidents reported by the California Highway Patrol in this area during the past week.

Mrs. Loewy was a passenger in a car driven by Harry Sydel, San Francisco, which collided headon with one operated by Cedric Stanley of Sacramento Sunday evening a mile west of Soda Springs. Also injured and treated at the Tahoe Forest Hospital as a result of the collision were Kirt Loewy, Rachael Alverit, both of San Francisco and Stanley. The latter was cited by Patrolman William Gautsche for being on the wrong side of the road.

Saturday morning John Stewart and Richard McDowell of Roscoe were hurt when their car overturned on a curve a mile and a half west of the Nevada state line. Patrolman Gautsche cited the driver for speeding.

Charles Bradd, Napa, driving on a snowy road for the first time, was cited for speeding and being on the wrong side of the highway after his car crashed into a P.I.E. truck driven by Donald C. Murray of Castro Valley two miles west of Soda Springs Sunday evening. Patrolman Carroll Maynard made the investigation. No one was injured.

Knee Injury Sends Mrs. Frey To Hospital Here

Mrs. Muriel Frey is expected to remain in Tahoe Forest Hospital this week for treatment of a recurring knee injury. Her many friends are hopeful of her quick recovery.

Mrs. Lynn Kishbaugh is temporairly replacing Mrs. Frey in her duties at the Truckee Elementary School.

TO RACE DOGS

Mr. and Mrs. Lloyd Van Sickle are planning a winter trip to Fairbanks, Alaska, where Van Sickle will enter his racing dog team in the annual big races in the North.

Located in City—

Dr. and Mrs. Sidney Kase are located in San Francisco while he is serving in the U. S. Navy.

At Bay—

Mr. and Mrs. James Walker were Berkeley visitors last weekend.

Incumbents Are Elected In Local Board Balloting

Warren Porter Of Tahoe Will Be New Member On Board

Despite the fact that there was no opposition, 232 voters in the Tahoe Forest Hospital District Tuesday turned out at the five precincts to vote for two incumbent write-ins, C. R. Heller and Nace Firpo and the new member of the hospital's governing board, Warren Porter of Tahoe City.

Both Firpo and Heller agreed at the last minute to continue to serve if elected when it became apparent that no other candidates would enter the race. The decision came too late to permit the printing of their names on ballots.

Porter, who polled a total of 232 votes, will replace S. B. Sederberg, the Tahoe City representative on the board. Sederberg was not a candidate. James Sherritt of Soda Springs and Asa Abbott of Kings Beach reprseent their districts on the board and were hold-over members.

Heller, president of the board, received 203 votes and Firpo, 198.

The results in the various precincts showed the following unofficial results, with a score of scattered write-ins not being included:

Truckee: Porter, 60; Heller, 66; Firpo, 60.

Tahoe City: Porter, 72; Heller, 59; Firpo, 60.

Kings Beach: Porter, 44; Heller, 38; Firpo, 38.

Floriston: Porter, 29; Heller, 27; Firpo, 27.

Soda Springs: Porter, 20; Heller, 13; Firpo, 13.

2.73 Inches Rain Falls Here During Storm For Past Seven Days

Precipitation for the past week was 2.73, according to a report by Henry Toccalini of the U. S. Tahoe Forest Service with the normal to the 30 of November determined at 3.78.

The total to November 17 for the season which began September 1 is 2.86.

Saturday, November 13 had the low temperature of 21 degrees, for the past week and the high for the same period was 57 degrees.

The recent rain and small amount of snow, wetting the tinder dry forests closed the fire season, Toccalini said.

Goicoa Returns; Plans To Play Baseball Here

Louis Goicoa, son of Mr. and Mrs. A. Goicoa of Boca, has returned home after serving an enlistment in the U. S. Navy in the Far East. He plans to return to work for the Southern Pacific Company and next summer hopes to play baseball here.

Goicoa pitched for the championship team in the Naval Aviation League, which was second team in the All-Navy Far East tournament. He was rated as a storekeeper, third class.

OFFICIAL MEET TO DISCUSS ROAD PLAN

Congressman Clair Engle has wired State Senator Harold T. Johnson of Roseville and Jim Dobbas of Auburn asking that they meet with him in Auburn today, regarding the Trans-Sierra highway program.

Johnson is the author of state legislation setting aside $20,000,000 to be matched by federal funds for the construction of the highway. Dobbas heads the Trans-Sierra Highway committee which sparked the program. The State Highway Department has already designated Highway 40 as the all-weather route.

HAS OPERATION

Mr. and Mrs. V. C. Shattuck returned this week from a trip to San Jose and other coastal cities. Mrs. Margaret Shattuck, 88-year-old mother of the local man, underwent an operation for an exploded appendix this week and was recovering nicely.

SUNBEAMS

By WALTER M. BARRETT

The interest shown in Tuesday's district election to name three directors to the board of the Tahoe Forest Hospital was gratifying and should indicate to those chosen that the people of the district have a real interest in their institution. Despite the fact that there was no opposition, more than 230 voters turned out to express their confidence in the two incumbents, C. R. Heller, Nace Firpo and the new director, Warren Porter. None can deny that the hospital went through a rather strenuous time during its formative years, with the arguments pro and con at times reaching heated proportions. That condition, we can sincerely hope, has been cleared up and by the strong uncontested balloting Tuesday it has been shown that bygones are bygones and harmony and good will can and must prevail if the hospital continues to progress as one of the district's most valued assets. Past mistakes and misunderstandings should serve only as guides for the future.

LAST RITES HELD WEDNESDAY FOR WILLIAM SCHULL

Funeral service were held at the Ullery Memorial Chapel at Yuba City yesterday afternoon for William Edward Schull, 63, who expired here Sunday morning following an illness of three weeks. Death was attributed to a heart ailment and a stroke.

The deceased was a native of Colorado, born March 29, 1891. He spent much of his life in his native state and later moved to Yuba City where he resided with his family until six years ago when he came to this area, being employed in the water department of the Southern Pacific Company.

Schull is survived by his wife, Mrs. Nellie Schull of Truckee, a son, Kirby Schull of Norden and a daughter, Mrs. Wanda Rankin of Yuba City.

Schull was widely and favorably known here and his death came as a shock to his many friends who will extend sympathy to the members of his family.

Talks Are Featured On Rotary Club Program

Talks on amateur radio operations by H. O. McDaniel and the condition of the winter feeding grounds for the local deer herds by Charles Osburn featured Monday night's meeting of the Truckee Rotary Club at Brown's Cafe.

Osburn presided in the absence of President Alvah Hooper and Clarence Tollefson was the program chairman. Tony Donadio of Tahoe City was a visiting Rotarian.

Nevada Group Scans Water Resources Here

A delegation of officials from Nevada, headed by Congressman Cliff Young and H. A. Hunt, bureau of reclamation chief in the district, were here Tuesday making a survey of the Truckee river and its tributaries in reference to the proposed Washoe Project and other planned water developments.

Also included in the group were John Thornton, former Truckee resident, now a member of the irrigation district in Nevada, Phil Hibbel and officials from the Nevada division of fish and game, headed by Director Groves.

In San Jacinto—

Mr. and Mrs. C. J. Knowles of Utah and formerly living here, have returned to San Jacinto, Cal.

At Donner Lake—

Mr. and Mrs. Carl Smith of San Francisco visited their Donner Lake place last week.

Osts South—

Mr. and Mrs. William Ost have left Truckee for Huntington Park, planning to return in the spring.

Traffic Continues To Set Record On U. S. Highway 40

Truckee Holds Second In Importance As Port Of Entry

Although traffic entering California during the month of October was down nearly 7000 cars below the count for September, it was still more than 3000 over the October, 1953 record, the monthly report from the state department of agriculture shows.

The Truckee quarantine station was still in strong second place as a port of entry last month, exceeded only by Yermo. The total number of cars checked here was 41,381, compared to 37,868 for the same month last year. There were also 3376 commercial vehicles and 611 buses checked into the state here.

The count does not include local vehicles nor those traveling east and tank trucks are excluded in the commercial tally.

At Meyers on Highway 50, 10,982 cars, 340 trucks and one bus were checked last month, a drop of more than 5000 cars from September, but a gain of 332 over the 1953 count.

SACRAMENTO (CNS) — The number of people entering California by automobile during October totaled 825,000, the state bureau of plant quarantine reported.

This compared with 809,000 a year ago. The number of out-of-state passengers reached 312,000, about 7000 less than October, 1953.

Out-of-state cars passing through plant quarantine stations at the state's borders numbered 122,771, about 500 less than a year ago.

Incoming truck traffic increased. The number of "foreign" trucks totaled 17,410, an increase of 2000 over the same month last year. California registered trucks numbered 10,044, a slight increase over a year ago.

Initiation, Duck Feast Are Features Here As Rotarians Meet

Three new members, Edward Grant, Truckee district forest ranger, Carroll Maynard, state highway patrolman and H. O. (Bud) McDaniel, manager of the Ransome Company here, were inducted into the Truckee Rotary Club at the meeting on November 1.

Clarence Tollefson conducted the induction ceremony with Alvah Hooper presiding at the meeting.

The big feature of the evening was the wild duck dinner, supplied by Joe Mattos and Willie Curran and prepared by Chef Earl Brown at Brown's Cafe. The charge for the meal was donated to the club's charity fund and totaled $80. Mattos, Curran and Brown were suitably thanked for the affair.

CARNIVAL TO START AT 6:30 SATURDAY

The carnival to be held Saturday, November 20 in the Truckee Elementary School will begin at 6:30 p.m. to give all members of a family and the general public an opportunity to attend.

All is in readiness for the evening of games and the homemade cakes, candies and hot dogs will be enjoyed by those attending.

LAUNDRY OFFICES WILL NOT BE CLOSED

Although Fontana's Laundry plant will be closed from November 22 to December 6, the office there will remain open to provide for service, Nat Quilici, owner, emphasized this week.

Pick up and delivery service as well as the call service will be maintained during the time the plant is closed for routine repairs and alterations. Laundry will be "farmed out" during the closure, but fast and efficient service will continue to be maintained.

Attends Meet—

R. N. Little yesterday attended a county planning board meeting in Nevada City.

Dr. Affeldt Will Reopen Dental Offices Here Soon

This entire region will welcome back Dr. Robert A. Affeldt, well known local dentist, on December 10 when he will reopen his offices on the main street here to resume his general dental practice.

Dr. Affledt enlisted in the U. S. Air Force as a lieutenant in June 1952, closing his offices here to serve two and a half years in the air force, most of which was spent in the South Pacific. During his service career, Dr. Affeldt was promoted to the rank of captain, a position he held until his discharge less than a month ago.

Shortly after his enlistment, Dr. Affeldt was married to Miss Jo-Ann Allen of Santa Monica, daughter of Mr. and Mrs. Ernest Allen. Mrs. Affeldt accompanied her husband on his tour of duty. They are currently visiting in Lansing, Mich., with his parents, Mr. and Mrs. John Affeldt and will spend the Thanksgiving holiday there, returning to make their home in Truckee soon thereafter.

Dr. Affeldt practiced successfully here from February, 1950 until his enlistment. He is a graduate of the University of Southern California College of Dentistry and later took post graduate work at the University of Michigan.

While here Dr. Affeldt made many friends, was a member of the Truckee 20-30 Club and was active in community affairs. He proposes to apply for membership in the staff of the Tahoe Forest Hospital and will resume his activities in the area.

This area has been without a dentist since the departure several weeks ago of Dr. Oliver Scow, Jr., who is now practicing in Porterville.

SKI GROUP OF TAC MEETS MONDAY TO FORM TEAMS

The ski group of the Truckee Athletic Club will meet Monday at 7:30 p.m. at the elementary school for the purpose of organizing and preparing for the forthcoming season, President Dave Morey anounced.

Men, women and juniors interested in the sport are urged to attend and those participating in competition for the TAC will have their entrance fees and a portion of their expenses paid during meets. The club team will be picked by competition among the members.

All skiers in the Truckee, Lake Tahoe and Donner area are asked to assist in organizing the local group.

Sportsmen Make Survey Of Deer Feed Grounds

A group of Truckee sportsmen, including Game Warden Irv Single, Charles Osburn, president of the Truckee Outdoor Sportsmen and Geno Giovannoni, attended a deer winter feed ground survey during the weekend at Doyle and Red Rock. Assistant Patrol Chief William LaMarr, a former local warden, also attended the survey to determine what action may be required to reduce the herds so that the feed will be ample to keep them over the winters.

Osburn will make his report at the next meeting of the Sportsmen.

National Publication Tells Of Local Building

The American School and University, edition 1954-55, contains an article written by Doyt Early, architect, State of California, department of education, concerning precast concrete slabs used in the construction of the Tahoe-Truckee High School.

Early says in part, "The desire to construct a building more durable than stucco, more fire resistant than frame, perhaps with fewer trades participating, however, has promoted a great interest in precast concrete unit construction. This structure was completed more easily than any typical construction would have been during the short summer season and long winters with perhaps as much as 12 feet of snow."

Truckee-Tahoe Is Loser In South Tahoe Grid Game

Seniors Out Of Game As Locals Battle To 21-13 Score

The South Tahoe Vikings won their first football game last Saturday as they handed a seniorless Tahoe-Truckee squad a 21 to 13 defeat.

It was a game played as a benefit for the late Gene Mastrioanni; and Alf Sorenson, who remains in critical condition following an automobile accident three weeks ago. All gate receipts went to the families of the two western Nevada conference officials. The game was well attended by fans from both schools.

South Tahoe opened the scoring in the first period as Taylor passed to Cragg for 20 yards and a TD. The conversion plunge was good and the score was 7 to 0.

In the second period, Taylor once again showed himself to be quite a ball player as he broke through the center of the Wolverine line and raced 30 yards to the goal line and the second touchdown of the day. The conversion by Taylor was good and the visitors led 14 to 0 at the intermission.

In the third quarter, the Wolverine left half and co-captain for the game, took a handoff from Pat Griffth and romped through the entire Viking team for 60 yards and a touchdown. It was one of the outstanding plays of the season. The conversion plunge by Roger Holbrook was good and the score was 14 to 7. Within a few minutes the Wolverines had scored again on a beautiful pass play from Pat Griffith to Doug Cooke. The pass was good for 20 yards and Cooke carried on in from the 15-yard stripe without a hand laid on him. The conversion was short and the Wolverines had pulled up to within one point of the Vikings at 13 to 14.

Midway in the final period, the running of Taylor once again paid off as he went around left end from 23 yards out to score South Tahoe's final TD. The conversion was good and the game ended with the visitors winning their first game, 21 to 13.

The game was interesting for local fans as they had an opportunity to see many of the Wolverines in action who have not played much during the season.

Some fine football was displayed by Junior Tom Dolley, Freshman Dean Holbrook and his brother, Junior Roger Holbrook. Doug Cooke, sophomore end, looks especially promising on offense, along with Juniors Bob Molsberry and Jim Crawford. Other sophomores who show potential are Guard Scott Gilmore and Junior Center Jay Mandeville. With more experience, Junior Pat Griffith seems to be the boy to take over the difficult quarter-backing chores for the Wolverines in 1955. The officials, who donated their services for the game, were Doc Mastrioanni, Ted Brown, Joe Ward and Bennie Mangus; along with the regular helpers, Link Dempsey, Fred Schultz and Skip Ferdinand.

Looking at the season as a whole, Coaches Jim Brehler and Gordon Butterfield term it a definite success. Two wins against six defeats does not tell the story completely. Comparative scores from the 1953 season should be considered, at which time the Wolverines lost seven and won none.

Brake Tester Will Be Given To School Here

A brake testing detonator will be given to the Tahoe Truckee High School District by the members of the Wyethia Club, to be presented next week by Mrs. Fred Pedley. The insrtument marks the break action of the driver of a car.

Mrs. Heller Will Be Installed Wyethia Head

Mrs. Charles Heller and other new officers of the Wyethia Club will be installed at a ceremony beginning at 7:30 tonight at Donner Lake Lodge.

RICHARD HORMANSKI WINS PHOTO AWARD

Richard Hormanski of Donner Lake was given an award of $100 in an international photography contest conducted by a magazine having competed with contestants entered from many countries.

The winning picture was a colored snapshot which Hormanski titled "The Meadow."

In Hospital—

Mrs. Margaret Gauman of Kings Beach underwent treatment at the Tahoe Forest Hospital this week.

To Capital—

Mr. and Mrs. J. T. White of Tahoma left yesterday for Sacramento.

AFFAIRS OF STATE
by Henry C. MacArthur

SACRAMENTO (CNS) — Once again, it appears necessary to comment on the extraordinary powers of the state medical board, and the methods used by the doctors who represent the monopolistic medical profession of the state to circumvent the opportunities given ordinary men to rehabilitate themselves and again become useful citizens after conviction of, and paying the debt for a crime.

From behind closed doors (much of the medical board's deliberations are conducted in secret) the board issued the ukase that Dr. Martin J. Reimringer, who is employed at Sonoma State Hospital, be stripped of his license to practice medicine, thereby being denied the right to make a living in his chosen profession.

The Reimringer case is one which has had some pecular implications, and indicates how the different units of state and local government work at variance with each other.

Dr. Reimringer was convicted of performing four abortions in Contra Costa County and was sentenced to San Quentin Prison in 1952. Subsequently, the court of appeals ordered new trials on three of the abortion counts, and upheld the conviction on the fourth. The district attorney of Contra Costa County decided not to re-prosecute on the three reversals.

Last February, Dr. Reimringer was paroled to the Sonoma State Hospital, where he has been a practicing physician ever since, a state employe performing the services any physician would perform in a state institution. When attention was called to the employment, the department of mental hygiene announced that as long as the physician had a license, he had a job, provided he met all the other requirements.

Then the attorney general's office got into the act, and at the request of the state medical board, filed an accusation with the medical board, seeking revocation of the doctor's license. And in the secret deliberations of the board, which incidentally is a governmental agency and therefore at least theoretically subject to the will of the people of the state, the license was revoked.

Of course, Dr. Reimringer can apply in a year's time for reinstatement of his license. But whether or not it wil be reinstated after the double penance required from two different state agencies, is a matter under present law, up to the medical board.

Regardless of the question of the guilt of the physician, or the circumstances surrounding the case, which appear to be debatable, the conflict between state agencies in dealing with paroled convicts is the principle here involved.

Why one state agency, whatever it is, should have the right to add punishment to any paroled convict, and thereby deprive him of his right to make a living in his profession, is a good question. If the convict were a shoemaker, for instance, nobody would question his right to make shoes while on parole.

But because he happens to be a doctor, which is virtually a self-governed profession, his colleages set themselves up as judges, and say in effect—the laws of the state of California and the punishments meted out by those lows, which were voted by the people, are not severe enough, after the parole board has determined that you are a good citizen and should be permitted to resume your former life, having in the eyes of the law expiated your crime, we now find you are in need of further punishment.

Japan was the second most important shipbuilding nation in the world in 1952, launching 92 ships.

Trailer Ordinance For Tahoe Passed At Meet

AUBURN—Board of supervisors this week passed an ordinance controlling house trailers in the Lake Tahoe area. The ordinance will apply to eight zoned districts.

Under the ordinance, no trailer coach shall be used for living or sleeping purposes in any zoned district except during the construction of a building. Then the owner of lot may apply to the county health department for a permit to occupy a trailer for a period not to exceed six months.

The health department will issue a permit providing sanitary facilities meet approval.

The ordinance does not apply to auto camps which meet state requirements, nor to any federal or state camp grounds.

S.O.S. Message Near Here Reported Hoax

Truckee officers Saturday branded as a hoax the report received from the Washoe County sheriff's office that large letters spelling out SOS had been scrawled in the sand on the bank of the Little Truckee river north of Boca.

The letters, apparently quite large, were spotted by a private pilot flying from Reno to Auburn and reported by radio to the Reno airport control tower at 2:15 p.m.

The pilot said the letters were near the place where the Little Truckee enters Boca Dam.

The Wahoe County sheriff's office relayed the information to the California Highway Patrol at Truckee.

An investigation, Patrolman William Gautsche reported, indicated the affair was a false alarm.

Pedestrians Are Urged To Think For Drivers

SACRAMENTO —"Pedestrians, protect yourselves by thinking for two, the driver and you."

During 1953 there were 785 Californians who failed to heed this axiom of traffic safety and paid with their lives.

"Pedestrian deaths accounted for almost one-fourth of all traffic victims in the state last year," declared California Highway Patrol Commissioner B. R. Caldwell, "and in many cases the victim was misled by his own feet."

Caldwell pointed out that pedestrians should obey all traffic laws that apply to them, and equally important, they must remain constantly alert for mistakes of motorists that could result in death or injury.

All pedestrians are admonished to cross at intersections, with green lights and within crosswalks, whenever possible. In any event it is imparative to look both ways before stepping off the curb.

"In areas where no sidewalks are available, the law requires pedestrians to walk on the left side of the roadway, facing oncoming traffic. It is also important to wear or carry something white when walking at night.

"Probably most important of all," he emphasized, "is the fact that no pedestrian should rely entirely on the wording of the law to protect him from an oncoming car. He must be constantly alert for danger when walking," he added.

Now is the time to select your Christmas cards at Sierra Sun.

Taxable Sales Decrease In County Seen In Report

SACRAMENTO (CNS)—Taxable sales in Nevada County during the second quarter of this year totaled $3,953,000, a 9.06 per cent decrease from the same period of 1953, the State Board of Equalization reported.

Statewide sales during the period amounted to $3,892,000,000, from which the state derived revenues totaling more than $117 million. The volume of sales was 2 percent under that of the April-through-June period of last year.

Tahoe Items

Kings Beach residents in the summer who are settling in nearby valley places are the Lester Levys, now in San Francisco while Mr. and Mrs. W. E. Gray are living in Oakland. M. E. Good writes that their address is now in Woodland and Mr. and Mrs. Paul Koltes have gone to West Sacramento.

Mr. and Mrs. Stanley . Bolton of Tahoe City have their winter address in Phoenix, Ariz.

See New Orleans—

Mr. and Mrs. Paul Kaspian are expected home this week from a trip to eastern and southern states, including a visit to New Orleans.

The Placer County Board of Supervisors has authorized a night patrol at Lake Tahoe for the next six months. The patrol will be maintained at both Tahoe City and Kings Beach. This proceedure is repeated each year to protect homes of part-time residents from burglars.

Personal Checks Will Be Banned For Licenses

Glenn Freeman of the Department of Motor Vehicles who is in charge of the Truckee office each Monday, was advised at the annual registration renewal school recently held at Sacramento, that no personal checks can be accepted this year for license renewals.

Freeman said that in the past, the state department has not held the clerks responsible, but will do so this year.

Now is the time to select your Christmas cards at Sierra Sun.

NORTH TAHOE

By JUDGE HARRY CHARRISON

All the boys of Cal-Vada Lodge have been taking a well-earned vacation since the big business terminated for a short while. I guess only until the real skiing starts. A good winter season is in prospect, according to Manager Joby Lewis.

I see Tahoe Inn at Tahoe City is closed temporarily while some important improvements are being made. I am informed it will be in first class shape for the Christmas season. Congratulations, incidentally to Mr. and Mrs. William Bechdolt, the managers, on the wonderful addition to an already proud family.

Mr. Woodhouse, who lives at the corner of Highway 28 and Coon street, has built quite a novel fence, a kind of a split rail affair, but it is very attractive, around his home. Also has it landscaped very artisistically. All thees things add to the beauty of the community.

Alice B. Nowlin, mother of Mrs. Fred Schhultz of Siesta Pines, has been staying for the past five days. She drove all the way up from Van Nuys and had a whale of a time according to Fred, took in everything, and was amazed with the beauty of hte lake.

Fred Schultz has been appointed to the committee of the Sacramento Valley Council of the California which lent its support to the development of the Truckee shortcut as a state highway. Each and everyone should put their shoulder to the wheel and get behind this project. Your Placer County supervisors are heartily in favor of it. Think of the advantages, we would get our mail direct, have a wonderful way in leaving the lake in any emergency, winter and summer alike, besides that extra mileage you would save in traveling to Trucke or Reno and return. Think of it and act now, ask Fred Schultz for information.

The fish and game authorities of California and Nevada are still trying to make Lake Tahoe a year-round place to fish. I understand there is to be a meeting at the beginning off December to which you are invited. Again, I say, call Fred Schultz to find out.

Watch for news of the activities of your North Tahoe Community Club. There will be a meeting very soon, and reports of the committee and commissioners of the North Tahoe Fire Control. Some very important developments are about to take form, so attend the next meeting of the Community Club.

Friday morning, and the sun is shining brilliantly. Yesterday we had a very nice rain to the delight of the fire control members, who on Tuesday last were called to a fire at the establishment of the Olson's of Tahoe, Kings Beach. This could have been serious but for the quick action of the boys who made the trip in four minutes. It seems the fire was caused by a defective flue and ran between the walls. We can still report no snow for the north Tahoe area which, by me, is perfect.

Davey Ashton was under the weather with a nasty cold during the past week but getting better pretty fast, I hear.

This is to the out-of-towners. It's Sunday night and it's a wet one, too. Oh, what a beautiful rain, just a little more like it and the fire hazard will be somewhat eliminated. Came over the shortcut an hour ago and with the little snow up there it was zig zag from one side to the road to the other, what fun, what fun. My wife threatened to get out and walk if it didn't quit.

Roy Vincent, Edward Jenson and Glen Jenson were vistors at the Dave Ashton residence in Kings Beach last week. Had a swell time sitting around that nice big fireplace Dave had built, and by the way the Lake Tahoe Lions met at the same place right in the big store building. What a meeting place that would make. A fine dinner was served. Charles Heller, of Truckee, zone chairman, also made an official visit.

Mr. and Mrs. J. C. Glunt of Kings Beach have left for Florida and by bus too, quite a trip, huh? We shall miss them a lot.

Signs are that there will be a lot of people, staying in, if it means anything that there have been around 15 fireplaces until this fall.

It looks to me as though the Tom James of James Lakeside resort have left for the winter, their place is at Tahoe Vista.

Saw Jack Richland in Reno last week. Jack used to be inspector at the quarantine station in Tahoe Vista. He tells me he is now promoting some oil deal. It's a good thing says Jack, so save your money, he'll be up to see you.

The Community Methodist Church (Wee Kirk of the Pines), accepted as new members, Mr. and Mrs. Robert Critchley of Sandy Beach resort, Tahoe Vista. The choir, after being somewhat depleted during the summer, is growing rapidly. Rev. and Mrs. A. B. Covher were at a minister's conference in Fallon, Nev., during the week.

The entire communiyt of Kings Beach area was greatly shocked to hear of the bad accident of our friend, Joe King, on Highway 40 in Nevada. It is sincerely hoped his injuries, althoughh severe, will not prove long in getting well again.

BOY INJURED

Robert Merica, 12-year-old son of Mr. and Mrs. Robert Merica of Soda Springs was treated for a head injury, resulting from a fall In the shower at the high school last week. Following treatment at the Tahoe Forest Hospital he was taken to his home.

White buoys with green tops in waterways mark areas in which dredging is in progress, or a survey is being conducted.

YOUR WIRING and HIGH BILLS

Wiring in most of the older homes in Truckee and some of the newer ones has not kept pace with change in conditions of the past few years.

In the past five years nearly 350,000,000 electrical appliances have been sold to add to the comfort, convenience and entertainment of family life in America.

Many of the homes in Truckee were wired originally for lighting only and the addition of even one major modern appliance may lower the voltage of the entire house by as much as 10 per cent or even more.

With a 10 per cent drop in house voltage, a 100-watt bulb gives less light than a 75-watt bulb operating at normal voltage and an appliance may take 25 per cent more time to heat—thus raising your bill by that amount.

Now is the time to have your house wiring checked... It may save you many dollars in higher bills and will protect your home from overheated wires.

NEW PATROL POLICY WILL ELIMINATE OLD FASHIONED METHODS

SACRAMENTO—Horse and buggy traffic enforcement is gone forever in California.

"In keeping with today's quickened pace in life and travel we have made a determined effort to equip our California Highway Patrol officers with the best modern equipment," declared Ross R. McDonald, deputy commissioner of the patrol.

"The patrol's fleet of modern cars equipped with super-powered engines and three-way radios make it very unwise for speeders to attempt to escape detection and arrest," McDonald added.

To emphasize this point he cited September arrest records showing 6403 speed arrests for drivers traveling faster than 70 miles per hour. This number represents more than one-third of the total off 19,001 speed citations issued by the patrol during that peiodr.

There were 34 arrests for vehicles traveling faster than 95 miles per hour, 56 arrests at speeds between 90 and 95, and 160 arrests for speeds of 85 to 90 miles per hour.

"When we consider that collision impact at 60 miles per hour is equal to driving off a 12-story building it is easy to see that death is almost certain in an accident at these ridiculously high speeds," McDonald commented.

CHISELING WILL BE HIT IN NEW STATE LABOR ACT

SACRAMENTO (CNS)—A long-range goal to change the public attitude of apathy toward chiseling on the unemployment insurance fund was announced today by Gov. Goodwin J. Knight, in a release issued by the state department of employment.

The governor said the department has virtually eliminated improper payments of unemployment insurance caused by administrative error through improved administration within the department.

A detailed report from William A. Burkett, director of the department, the governor said, provides evidence that what had been a heavy drain on the fund because of administrative weakness is now almost completely halted.

Further legislative changes, according to the report, are necessary before the attack against fraudulent payments caused by the deliberate dishonesty of claimants can show a major decrease.

Preventable improper payments decreased from seven to one per cent of the total paid for the three-month period ending April 23, 1954, compared to two previous quarters in 1953. Total payments for 1954, it is estimated, will amount to $148,000,000, and through the administrative controls established, approximately $10,000,000 has been saved for the fund. Since April, the improper payments preventable have been reduced to zero, according to the report.

"So long as large numbers of claimants see nothing wrong in chiseling on the unemployment insurance fund, fraudulent claims will be filed," the governor said.

When San Francisco's Palace Hotel reopened after the 1906 fire, the key to the main door was sent aloft, hitched to five balloons, which drifted out to sea.

Merry Miles,
New Greyhound Travel Personality

GREYHOUND HAS NEW PROMOTION PLAN WITH GIRL

A new travel personality is being introduced to the traveling public by Pacific Greyhound Lines. Her name is Merry Miles and she is being described by the company as "Your Greyhound Travel Advisor."

According to Glen G. Magnuson, general traffic and sales manager for Pacific Greyhound, Merry Miles will make her headquarters in San Francisco, but she will travel extensively throughout the Pacific Greyhound system.

"During these trips," said Magnuson, "Merry Miles will be available to give talks and show motion pictures on travel to such groups as clubs and schools." In addition, she will represent the bus company at many public events. This will include state fairs, depot opening celebrations, introductions of routes, and many other functions.

"Merry Miles will always be happy to help you plan any type of travel and the interesting features to look for. She will supply complete information on such things as charter service, pre-planned vacations and holidays, and through express service. Most important of all, she will show you how to have more travel pleasure at lower travel cost."

Magnuson urged those desiring further information on Merry Miles and her services to write her in care of the Greyhound Building, Market and Fremont streets, San Francisco 5, Calif.

From where I sit ... *by* Joe Marsh

Granny Drives But Won't "Shift"

Saw Grandma Taylor parking her 1924 Franklin out front the other day. Neat as a pin, radiator and hub caps gleaming—the whole car is as shiny as the day she bought it 30 years ago.

Then I stopped and looked again—for there, hanging on the spare tire was a sign: "This car NOT for sale."

Asked Granny what was going on. "Joe," she says, "it's this craze for old cars. Everybody wants to buy my Franklin. But it has served for years and it's not for sale at any price."

From where I sit, it's strictly the new cars for me—but Grandma Taylor, and others, are certainly welcome to their "old faithfuls." It's simply a question of preference. Same with a choice of beverages. For instance, I like a temperate glass of beer with supper. You may prefer coffee. Fine! The important thing is that we respect each other's choice—and "ride along smoothly" together.

Joe Marsh

Copyright, 1954, United States Brewers Foundation

AS GENERAL ELECTRIC SEES IT...

Every year Americans live better because electricity costs so little

These 30 everyday General Electric appliances lined up on the front lawn dramatize the impact of low-cost electricity on American life. Per capita use of electricity in U.S. is 2 times Britain's, 5 times Russia's, 167 times India's.

An average U. S. family uses enough power each day to equal the energy output of 35 hard-working men

Nowhere on earth has electricity been put to work more widely than in the United States, and its price been kept so low.

We've come a long way since Thomas Edison invented the first home use of electricity — an electric light — just 75 years ago. There are three reasons for this progress.

First, America's electric utilities have invested in facilities ($18 billion in the last ten years!). And the electrical industry has steadily increased the efficiency of power equipment. Turbine-generators made by General Electric, for example, produce 10 times more electricity per pound of coal than Edison's original generators.

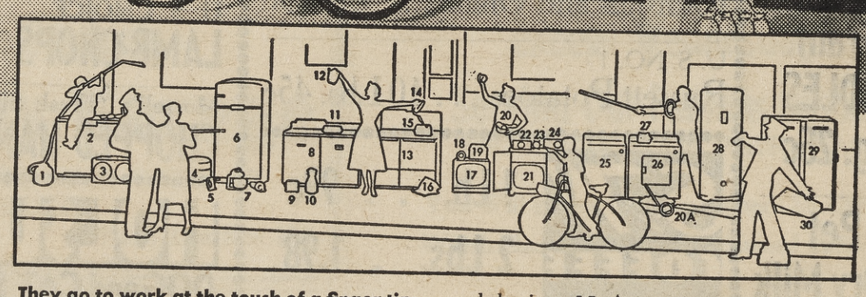
Second, appliances have been constantly improved and are mass-produced to bring their price within reach of everyone. The first 60-watt lamps cost about $1.00 and gave a light equal to 7 candles; a G-E 60-watt lamp today gives a light equal to 67 candles, and costs only 19 cents.

The third reason for progress is our free economy, which has allowed industry to grow, create jobs and produce effectively for everyone's benefit. As we see it, it adds up to a good example of progress in the American way.

Meanwhile, we're hard at work to make the future even better.

• • •

For more information, send for 36-page illustrated booklet, "Power Maker for America"— the story of how electricity is made. Write General Electric, Dept. 02-119, Schenectady, N. Y.



They go to work at the touch of a finger tip:
1. Swivel-top vacuum cleaner and accessories 2. Food freezer 3. Twin-fan ventilator 4. Floor circulator fan 5. Portable mixer 6. Refrigerator-food freezer 7. Triple-whip mixer with accessories 8. Electric sink (including dishwasher) 9. Kitchen wall clock 10. Disposall® (food-waste disposer) 11. Sandwich grill-waffle iron 12. Automatic coffee maker 13. Range 14. Steam and dry iron 15. Automatic toaster 16. Heating pad 17. Table television set 18. Alarm clock 19. Portable radio 20-20A. Lamps: Inside-frost, three-lite, white-bulb, sunlamp, heat lamp, spotlight, floodlight, circline fluorescent, and fluorescent 21. Console television set 22. Clock radio 23. Occasional clock 24. Table radio 25. Automatic washer 26. Clothes dryer 27. Workshop motor 28. Water heater 29. Year-round air conditioner 30. Automatic blanket.

Progress Is Our Most Important Product

GENERAL ELECTRIC

COUNTY TO RECEIVE LARGE AMOUNT FROM U. S. FOREST REVENUE

Nevada County will receive $46,579.39, its share of a check amounting to $2,537,323.59, which was recently turned over to the State of California as cash revenues from the national forests in California, according to Clare Handee, regional forester, California Region, Forest Service.

Hendee says, this payment represents 25 per cent of the receipts from timber sales, grazing fees, land use, and other uses of the national forests for the fiscal year ended June 30.

As provided by law, the states apportion the money thus received to the counties having national forest land within their boundaries. The law further provides that the money will be used for the benefit of public schools and roads. When a national forest lies within more than one state or county, the portion of the receipts distributed to each, is proportional to the national forest area therein, Mr. Hendee explained. Thus, 40 counties share in the receipts of two or more of the 21 forests in California.

Sierra County recieved $112,190.25; Placer County, $85,332.97 and Yuba County, $15,227.31.

FILM IS SHOWN AT ROTARY MEETING

KINGS BEACH—The regular meeting of the Rotary Club of Brockway was held on Monday eveing at Cal-Vada Lodge, at which visitors were welcomed from Tahoe City.

Following the usual delicious dinner Program Chairman Marion Dodd presented a most interesting film, entitled "Nevada Resources," which was furnished through the courtesy of the Standard Oil Company.

Tentative plans for a duck dinner, which incidently will be a ladies' night, are in the formative stage.

The largest settlement of Chinese in the world outside China is San Francisco's Chinatown.

TAHOE TOPICS

by JEANNETTE MITCHELL

Friends of Basil Kehoe will be very sorry to learn of his illness which came upon him quite suddenly Friday evening. Basil is holding his own in the St. Mary's Hospital at Reno.

Sam and Della Goss have left for the lowlands where they may stay for the winter, visiting their daughter and her family. Della recovered nicely from her recent eye operation.

Imon Mitchell's birthday party was suddenly postponed on November 6 due to the sudden illness that befell the Mitchell's house-guest, Mrs. H. L. Youman of Roseville. Mr. and Mrs. Mitchell and son, Dale, took Mrs. Youman down to Roseville immediately where she reportedly is now doing much better. Mitchell resumed his party, in part, Monday evening having the Bertal Andersons and the Mel Mertzs as guests and though belated a good time was had by those attending.

The social whirl is still whirling in these parts with a lovely card party given by the Tahoe Women's Club, Thursday, followed by the Ski Club's Turkey Hop at Squaw Valley Saturday night that netted the club approximately $250, proceeds of which will go towards the Junior Ski program. David Kriedt, our high school teacher, is to be commended on the wonderful music—hear that Martin Record is a drummer first class. Hugh Smith, another of our versatile teachers, helped, but definitely. The bass fidler was "imported" from Reno and certainly did his share—everyone had a "hopping good time"—understand there should be many bouquets to Carol Marvin who was in charge of the affair. The next regular meeting will be Friday November 19 in the purple room at Squaw Valley when some more plans will be laid for the Turkey Slalom.

On November 10 and 11, Myrle Rose and Jeanette Mitchell motored to Oroville to attend a Superior California District meeting of the Secretaries and Managers of the Chambers of Commerce. Many new thoughts were aired and Mrs. Mitchell feels the trip well worth while.

Upon the conclusion of the meeting Mrs. Mitchell and Mrs. Rose drove to Marysville where they stayed overnight, having a very joyable evening with Mrs. Dorothy Whitten of Marysville and Lake Tahoe.

On the eve of November 11 there was held the regular board of directors meeting of the Lake Tahoe Sierra Chamber of Commerce in the American Legion Hall, south lake area. Attending were John Edge, Warren Porter, C. W. Vernon, N. R. Mayfield, Don Snyder, all directors, President Norman Celio and Secretary Jeannette Mitchell. The meeting was more or less an open forum discussion of the affairs of the chamber and the recent Gold Cup races and the multitude of bills encountered. It is hoped that in the future these races will be more self supporting. The idea now coming from Stan Sayer himself is to have the Gold Cup races in conjunction with the Seattle and Detroit dates and thereby be on a circuit which will place the event sometime in July or August.

It was brought to attention the beautiful picture of Emerald Bay in the November issue of the Holiday Magazine.

Some new members on the various committees were selected: Adult and finance, Fred Schultz, John Edge and Norman Mayfield. By-laws committee: C. W. Vernon, Ralph Stanley, and C. B. Bull. Executive: Mrs. Anna Dugdale, Ralph Sears, Don Snyder, C. W. Vernon Porter, John Edge. Fish and game: Ralph Stanley was added to serve with Waldo Gross and Harry Maed. Gold Cup committee a new committee: was Fred Main, chairman, Al Young, Ken and Glen Amundson, C. B. Bull. Office committee: Bill Vernon, Porter and Dennish Sach. The secretary, Jeannette Mitchell, was instructed to write some letters where it would be best placed in regards to the agreed opposition on the Washoe Project. Letters were sent to Governor Knight, U. S. Senators Kuchel and Malone; Representative Clair Engle; Senator Harold Johnson; Placer County supervisors; Sacramento Valley Council and State Chamber of Commerce. The text of the letter is as follows:

"Following discussions with the citizens of our area, the enclosed is a report of their consensus, on their attitude in regard to the Washoe Project. We do reserve the right for future study of the September 1954 Feasibility Report, not yet received, and at this time desire to inform you, as an interested party to the effect, that, we oppose any deviation or destruction of the natural, nature made rim or contours of Lake Tahoe; pumping to lower levels, other than now established and held by the natural rim; we oppose any and all tunneling projects into the rim or lower levels of Lake Tahoe; oppose any change in the number of gates at the Tahoe City Dam other than now in evidence; oppose any dredging of the Truckee river from the Tahoe City Dam to the town of Truckee, to widen or deepen the natural channel. Respectfully submitted in the name of the Lake Tahoe citizens and the Lake Tahoe Sierra Chamber of Commerce."

The 1954-1955 California Winter Sports Guide, complete with all the information the winter sports fun, present or prospective, would like to know, has been released today by the winter sports committee of the California State Chamber of Commerce. The Guide, free to the public, covers the entire state with detailed information as to resorts, their accommodations and rates, number and size of ski tows and chair lifts. ski schools and instructors.

We bring you
THE 1955 BUICK
New thriller in Style-Power-Performance

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

A BRIGHT NEW FRESHNESS greets your eyes and tells you: *Buick's done it again.*

You see it in the bold distinction of that gleaming Wide-Screen Grille. You see it in the rakish sweep of the rear-end contours. You see it in the whole fore-and-aft newness of fleet-lined grace that marks Buick the beauty thrill of 1955.

New horsepower—up to 236

You learn more when you get the power story. Up to new peaks go the horsepowers of every Buick V8 engine—a walloping 188 hp in the low-price SPECIAL—a mighty 236 hp in the CENTURY, SUPER and ROADMASTER.

And it's new, more responsive, far abler power you can literally *feel* as you go.

But even bigger Buick news for 1955 is something more than style and power. *It's what the "variable pitch propeller" now has done for Dynaflow Drive.**

Up goes performance—and gas mileage too

When you find it necessary to push the pedal to the floor board, you do more than call on the greatest high-compression V8 power in Buick history.

You do what a pilot does when he heads his plane down a runway.

You do in oil what he does in air—*you cut down take-off time by using "variable pitch propellers."*

In this case, the propeller blades are inside the Dynaflow unit. But they're engineered to swivel or change their "pitch" just like plane propellers—and with the same result: one pitch for getaway, another pitch for gas-saving fuel efficiency.

And what you get in the way of instantaneous safety-surge with absolute smoothness, you can only believe when you feel it.

This you have to try

Of course, we want you to come and see the trend-setting new Buicks—look into the betterments in gasoline mileage that add new thrift to these spectacular cars.

But this year, "seeing" is only the beginning. So—while you join the crowds viewing the new Buicks this week end, make a date to get behind the wheel as soon as you possibly can. We promise you the thrill of the year.

**Standard on Roadmaster, optional at extra cost on other Series.*

Tahoe-Truckee School District News

TRUCKEE ELEMENTARY

Kindergarten: Our class has been working toward better relationships. We discuss the rights and privileges of others and how a family lives together. Some of the children whose pictures decorate the bulletin boards are Bonnie Cano, Kathy Braasch, Jeannie Gough, Timmy McLane, Bill Waters, Linda Colston, Karen Hedlund, and Judy Wakefield.

First Grade News: (Mrs. Croxen.) The first grade saw film strips on family life. The children found out there were many things they could do at home to help make family life happier.

First Grade: (Mrs. Bissett.) Mrs. Bissett's first grade has been studying early and modern homes. We learned about the tree and cave dwellers and are now studying the lake dwellers. Our room was in charge of keeping the playground looking neat this week. Sherry Borden swept the playground, Alexandra Cushing carried the wastebasket and we all helped.

Second Grade: In dramatic play we went on a train trip, as our social studies units is "Trains." John Knavens was engineer, Danny Garcia, fireman; Eddie King, conductor; Jimmy Roth, brakeman; Terry McKurtis, railway mail slerk; Judy McGwinn and Carolina Urbina, "waiters" in the dining car; Salvador Cabrera and Gregory York tended the tracks and switches. The others were passengers who purchased their tickets from Marcia Leamon, the ticket agent.

Third Grade: New committees were formed as we started the unit on "Uses of Buses." This unit is being introduced by studying the need of buses for transportation and their many uses throughout the United States.

The school bus committee is Arnie Durish, Karey Kielhofer, Daryl Breakfield and Steve Besio. Buses on the highway is composed of Daphne Robichaud, Dick Ingalls and Richard Sornoi. Bulletin board displays will be arranged by Robert Kaspian, Gary Costa, Bobby Frates and Dennis Deming. The construction committee will be formed later.

Fouth Grade: Our class has chosen five groups to work on activities. The "Discovery Mural Committee," with Dennis Whiteneck as chairman, is making a mural of Sir Francis Drake's discovery of Drake's Bay. The "Mission Map Committee," with Mike Lee as leader, is making a 4 feet by 4 feet map showing the locations of the missions. The "Mission Mural Group" has already projected their outline of the Mother Mission at Carmel and plan to add the other buildings and the original bell ringing by Father Serra. Gene McGihon was chosen leader of this group.

On a different trend Janice Stewart is leading her group into building a scene showing the busy life of the mission. Patricia Ramsey and Mary Ann Miller have brought some of the necessary materials and Jerry Kirby plans to bring some adobe clay for atmosphere. The play, planned under Janice Roth's leadership, will depict the coming of Cabrillo and the first white men.

Fifth Grade: The fifth grade has started to study about the War for Independence and about the many great men who laid the foundations of the United States of America. Mike Robichaud was among the first members of our class to learn Patrick Henry's memorable and inspiring words, "I know not what course others may take, but as for me, give me Liberty or give me Death!"

Several class members also learned the patriotic poem, "The Midnight Ride of Paul Revere." Among those who were able to recite well were: April Landar, Barry Leamon, Mike Robichaud, and Karen Smart.

Sixth Grade: Judy Giovannoni, Doug Single, and Reggie Smart volunteered for a special project of listing the important rivers, cities, wheat and forest belts, and mountain ranges encountered thus far in their study of Canada.

Last Monday the class visited the library at the high school in commemoration of Book Week. Each one selected and checked out a book for his pleasure.

Lily Cushing was appointed captain of the traffic patrol to succeed Clark Kydd.

TAHOE LAKE SCHOOL

Kindergarten: "The fish have arrived!" "Gee, they're pretty!" "What kind is that one?" Such are the exclamations from the kindergarten room at Tahoe Lake School this week, as the seven pairs of tropical fish have settled in their new home in the school aquarium.

First and Second Grades: We have been painting pictures of the coming of the Pilgrims to America. Lance Poulsen's showed the Pilgrams getting off the ship and being greeted by some Indians. Kathy Wilson painted some Indian teepees and fires for cooking turkeys. Gregory Moore, Jayne Shontz, Rollin Kehlet and Donald Bury read a story from thier reader to the entire class.

Third and Fourth Grades: We have been studying science and our first step was about porcupines and we recorded the story about them. Our second step was about insects. We found out that all insects have six legs and we drew a picture of an insect, by Daniel Conners, James Schrader and Bill Gorham.

Fifth and Sixth Grades: Our class had its first dance of the year on Friday night. Parky Bechdolt was chairman of the refreshment committee, John Gorham, chairman of music, and Kenny Wilson headed the clean-up squad. The fourth grade were guests and enjoyed themselves very much. In social studies, we have been studying about the water control projects in California. The Shasta Dam, Friant Dam, and the Hoover Dam have been our main interest as they influence the agriculture of our state so much.

The fifth grade defeated the sixth round of their spelling contest.

HIGH SCHOOL NEWS

This week at the Tahoe-Truckee High School students were busy with the beginning of the new quarter. The grades have gone home so the job at hand is to raise low grades and to strengthen and maintain the high grades.

Thursday the journalism sponsored a promotional assembly to boost annual sales. The assembly featured a skit and news report.

Monday, November 15, basketball practice started in earnest. A good many interested boys turned out and we are looking forward to a successful and enthusiastic season. Schedules will be available at a later date.

Radio Equipped State Cars Will Provide Road, Weather Facts

SACRAMENTO—An augmented fleet of more than 650 radio-equipped vehicles will supply up-to-the-minute information on travel conditions along California state highways this winter, the division of highways announced today as it prepared to resume publication of its daily road condition bulletins.

Since last winter, the division has equipped 50 additional autos and trucks with two-way FM radio in order to give improved coverage of road and weather conditions along state highways.

Each winter season the division publishes daily road bulletins of last-minute information from the time that travel on major routes is affected by the first storms to the reopening of these routes in the spring.

The road condition information is reported via radio by state maintenance men patroling every mile of highway under their charge. The weather report is furnished by the U. S. Weather Bureau.

Turkey Prices Drop To Low For 10 Years

SACRAMENTO (CNS) — Housewives this year will pay the lowest prices in ten years for Thanksgiving and Christmas turkeys, a University of California farm economist has predicted.

He also forecast continued low prices of eggs through March of next year.

Edwin C. Voorhies, chairman of the department of agricultural economics at the university, said a nine per cent increase in turkey production this year will give the family meat budget a break for the next three or four months.

But he said this year's low prices will probably lower next year's production.

Sutro Heights in San Francisco, once a renowned fashionable gathering place, is now a public park.

Marble statues in Sutro Gardens in San Francisco came to the city as ballast in ships from Belgium and other parts of the world.

A granite monument—the Hispaniola of "Treasure Island"—in San Francisco's Portsmouth, is dedicated to Robert Louis Stevenson.

RADAR SPEED TESTS CONDUCTED HERE

Tests with the California Highway Patrol's new radar speed detector were made in this area during the weekend by Capt. Ralph L. Walker, assisted by Patrolmen Don Jones, Patten and White.

The tests were to determine the influence of the higher altitude on the delicate equipment, Sgt. Ed Freeman of the Truckee squad said. The results showed that the radar operates effectively here as well as at lower elevations.

Scientifically, the equipment has been established as accurate in measuring speeds within a two per cent range. This means the machine is accurate within one mile per hour at the speed of 50 miles per hour and in the same ratio at other speeds.

Test cases are currently being made to determine whether or not the radar will be used in making official arrests.

Schools Seeking More Money Despite Big Approved Bond Issue

SACRAMENTO (CNS) — Pleas for continued state aid to rapidly growing elementary and high school districts have been delivered to the senate interim committee on education.

Witnesses appearing before the group thanked the legislature for putting the $100,000,000 bond issue known as Proposition 2 on the fall ballot, but declared the school bond money, if approved by the voters, will not last more than two years.

Nelson S. Dilworth, of Riverside County, chairman of the committee, said passage of Proposition 2 was intended to help "needy" school districts house growing numbers of school children for the next two years only.

Dilworth said he anticipates another bond issue will appear on the ballot in 1957. He added that the legislature, in voting to place Proposition 2 on the ballot, was continuing a "formula" of allocating $5,000,000 a month as state aid in California's building program.

Arthur Cory, executive secretary of the California Teachers Association, testified that his organization estimates some $300,000,000 in state bond money will be needed by 1959. He said the estimate was conservative.

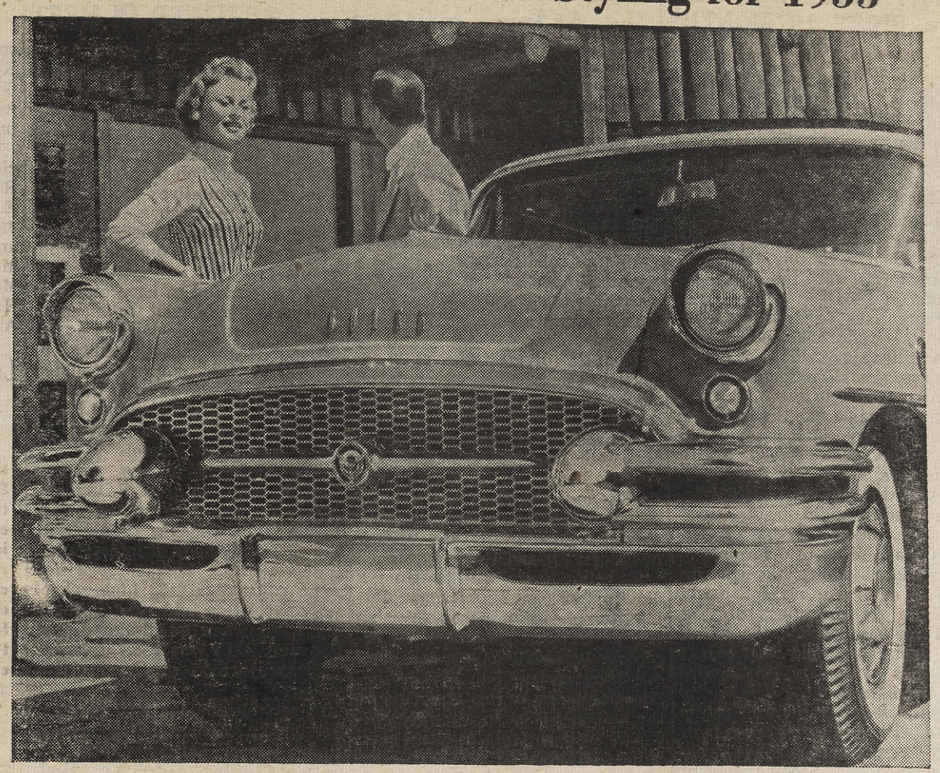
John M. Peirce, state director of finance and chairman of the board which allocates school bond money, said that a few more meetings of the board will about exhaust the $185,000,000 in state aid money voted by the people in 1952.

He said the allocating board has guarded against waste in the state aid program. He asked that school districts to apply for such frills as "incinerators when old oil drums will do the trick."

Dilworth urged intensive campaigning in favor of Proposition 2 in the state's metropolitan areas, where most of the votes, and most of the tax dollars to repay past bond issues, come from.

The first commercial telephone exchange in the world was opened at New Haven on January 28, 1878.

Buick's New Front End Styling for 1955



BUICK'S FRONT END, long one of the most easily identified in the automobile industry, sets a new style fashion in 1955. It paces the trend toward a more compact appearance with a recessed hood, more massive bumpers and a completely new wide-screen grille. Two "bombs" protect the grille itself while smart new roll-edge wing guards shield the fenders and lights. Headlights are visored in a distinctive fashion. The Buick tri-color medallion is located on a bar across the front of the grille, and the letters "B-U-I-C-K" in brilliant chrome grace the center of the recessed hood. The hood ornament, mounted on four concentric rings, symbolic of Buick's four great V-8 series, is bright chrome on the Special, Century and Super, and is finished in gold on the Roadmaster.

Increase Asked To Run State Penal Institutions

SACRAMENTO (CNS) — The state department of corrections has asked for $24,473,332 to run its institutions during the 1955-56 fiscal year. This would be an increase of nearly four million over its current budget.

Richard A. McGee, department director, said the request was based on an anticipated prison population of 16,450. Present number of inmates is just over 15,000.

Liquor License Returns Are Shared By County

Liquor license fee earnings during the six months ended August 31, 1954, amounted to $3,360,000, according to Paul R. Leake, third district member of the state board of equalization. Of this sum $3,220,484 has just been distributed amoung the counties and all but six of the cities of the state.

Nevada and surrounding counties and their cities received these allocations:

Nevada County	
Unincorporated Area	$4,638.76
Grass Valley, City of	1,893.75
Nevada City, City of	1,515.00
	$8,097.51
Sierra County	
Unincorporated Area	$1,598.44
Loyalton, Town of	340.00
	$1,938.44
Placer County	
Unincorporated Area	$8,708.75
Auburn, City of	2,787.50
Colfax, Town of	910.00
Lincoln, City of	872.50
Rocklin, City of	448.75
Roseville, City of	2,830.00

Ranchers Urging Black Bear Be Classifed On List Of Predators

SAN FRANCISCO—A final report, rceommending that the black bear be placed on the predator list, was filed with the fish and game commission here by the bear damage study committee. At the same time a minority report, discounting the necessity of legislative action against the bear, was filed by E. Larry Meyers, Klamath sportsman and member of the committee.

Both reports, as well as telegrams pro and con, were received and filed without action by the commission.

Original requests for commission action came from North Coast lumbermen and livestock operators, who claimed excessive damage by bears to young trees and to livestock. After filing its report, the committee was discharged with thanks by the commission.

Open Range Law Hit At County Board Meet

NEVADA CITY—The open range law, which has been the subject of controversy in Nevada County since the first herds of cattle were moved into the foothills a century ago, is under attack again.

Under the open range rule cattle are permitted to roam unfenced outside the incorporated areas of the county.

The new dispute was opened before Nevada County supervisors Monday in a letter from the Nevada City Farm Center urging the supervisors to extend the radius of the areas in which cattle may not range to five miles from Nevada City and Grass Valley, the county's only incorporated communities.

The supervisors, two of whom are cattlemen, declined to take immediate action but said a series of public hearings will be scheduled to hear both sides of the argument.

Under open range law, garden and orchards operations outside Grass Valley and Nevada City must fence their properties against range cattle which might damage crops.

Arrest Records Show Many Speedy Drivers

SACRAMENTO (CNS)—September arrest records of the California Highway Patrol totaled 6405 of drivers traveling faster than 70 miles per hour, and represented more than a third of the 19,001 speed citations issued by the patrol during the month, Bernard R. Caldwell, highway patrol commissioner, announced today.

Forest Service Seeks Airport Springs Water

SACRAMENTO—The state division of water resources announced it has received application from U. S. Forest Service, Nevada City, for 1000 gallons of water per day from Airport Springs, tributary to Truckee river, for domestic purposes.

ARE YOU A SUNSCRIBER?

NOTICE FOR PAYMENT OF COUNTY TAXES

The taxes on all personal property secured by real property and one half of the taxes on all real property for the fiscal year beginning July 1, 1954 and ending June 30, 1955, will be due on November 1, 1954 and will be delinquent on the 10th day of December, 1954 at 5 o'clock p.m. and unless paid prior thereto six per cent will be added to the amount thereof. The remaining half of the taxes on all real property will be payable on and after the 1st day of February, 1955 and will become delinquent on the 11th day of April, 1955 at 5 o'clock p.m. unless paid prior thereto six per cent will be added to the amount thereof together with a further charge of $1.00 for each lot, piece or parcel of land separately assessed and for each assessment of personal property.

Mrs. Ellis Is Hostess At Pink, Blue Shower

Mrs. Jack Ellis was hostess at a pink and blue shower on Thursday evening in honor of Mrs. Hugh Weinand.

A large cake decorated with booties centered the table with "Welcome Little Weinand," inscribed in icing. Mrs. Weinand opened her gifts before games were played. Those invited included Mesdames Clinton Brines, Clarence Osburn, Russell York, Chester Burns, Lauren Russell, Kenneth Hedlund, Kenneth Foster, Al Wakefield and William Curran.

CARD OF THANKS

For the splendid vote which we received in last Tuesday's Tahoe Forest Hospital District election we wish to express our sincere thanks. We can assure you that it will be our foremost aim to justify the confidence you have placed in us and shall strive even harder to make your hospital a greater asset to the district.

Stead's Hurricane Is Damaged In Reno Fire

TAHOE CITY—Speed boat racing fans will be interested in the dispatch from Reno reporting the damage to the world's second fastest speedboat, Bill Stead's Hurricane IV, while it was parked on a trailer in Reno.

Although sabotage was not discounted, firemen said they thought the blaze was accidental.

The Hurricane IV took part in the Gold Cup races at Seattle this year and broke a propeller shaft. Later at the Mile High Regatta at Lake Tahoe, it crashed into a disabled craft and sank.

Only parts of the boat can be salvaged following the fire, Stead said.

David Ayala Is Feted At Party On Birthday

Mrs. Alex Ayala of Floriston gave a party on November 11 in honor of their son, David. A barbeque supper was followed by games for the school friends and included Joe and Salvador Cabera, Mike Kumle, J. C. Roberson, Barry Leamon, Jimmy Osburn, Charles Berger, Mike Spoon.

300 LESS HIGHWAY FATALITIES DURING FIRST 10 MONTHS

SACRAMENTO—Somewhere in California almost three hundred families can be extra thankful this Thanksgiving; and there's no way of knowing which families they are.

Ross R. McDonald, deputy commissioner of the California Highway Patrol, pointed out this fact today when reviewing traffic accident totals for the first ten months of 1954.

"From New Year's through October this year 2493 people have been killed in California traffic. This represents a reduction of 289 when compared to the 2782 killed during the same months last year.

"In unincorporated areas of the state," McDonald observed, "traffic deaths are down 197, from 1937 last year to 1740 during 1954."

This reduction in deaths represents an economic saving of $32,425,800, according to a formula of the National Safety Council devised to determine accident costs.

"While the reductions in tragedies are encouraging, the toll is still deplorable, and the most dangerous period in the entire year is still ahead.

"Pedestrians who are preoccupied with holiday shopping, or trying to protect themselves from bad weather, often become accident victims. Motorists who fail to allow for the hazards of wet streets and poor visibility also contribute. By practicing alertness and caution in traffic we can give thanks for even more lives saved," McDonald said.

Rain Falls At Tahoe To Banish Fire Dangers

TAHOE CITY—Rain in rather torrential fashion has damaged the weather picture here and brought relief from the dangers of fires.

More than an inch and a half of rain fell Monday, followed by a light snow Monday night. Nearly half an inch of rain was recorded last Friday following .01 of an inch Thursday, to bring the total precipitation for the week ending Monday to 2.30 inches.

With six gates open, the level of Tahoe on Monday stood at 6226.39 feet above sea level, Art Frodenbreg, cooperative observer, said.

Fees Will Be Collected For Nursery School

Mrs. D. L. Schuler, publicity chairman for the Truckee Parent Nursery School announced at a meeting held in the Truckee Elementary School on Wednesday, November 10 that a small sum will be collected for each child attending the sessions, the money to be used to buy needed equipment. Arrangements may be made for those not being able to afford the fee.

The system of required attendance by the mothers is four out of six sessions each month, to include one night meeting. All mothers to attend one day of their choice each month.

The meeting to be held on November 23 will convene in the local high school when plans for a potluck supper will be discussed.

Mrs. Schuler said that an attempt is being made to hold the children's sessions in the morning and possible meeting places are being sought. Meetings are open to the public.

Returns Home—
Mrs. Donna Songer returned from Roseburg, Ore., where she attended funeral services for her sister and then accompanied her parents to their home in Washington.

On Vacation—
Mr. and Mrs. William Englehart and Mr. and Mrs. William Englehart, Jr., have been vacationing with relatives in Los Angeles.

Bennetts at Walnut Creek—
Mr. and Mrs. Robert Bennett, who spent much of the summer here, have returned to Walnut Creek.

Game Areas Due For Invasion Of Hunters As Season Is Opened

An army of scatter-gun artists will invade California upland game areas beginning at 8 a.m. Saturday, November 20, with the accent on the great pheasant bowl of the Sacramento and San Joaquin Valleys.

Other seasons which begin at the same time in most araes are quail, tree squirrel and brushh and cottontail rabbits. There will be a four-day open season on chukar partridge in several southern California counties for the first time this year.

Hunting for most species is expected to be about average according to the department of fish and game.

Nimrods are cautioned to check the state hunting regulations for specific details on open areas, bag limits and shooting hours. Abstracts of the regulations are available at license agents, and Department of Fish and Game offices.

Shooting hours will be from 8 a.m. to 4:30 p.m. for all game during the pheasant season, November 20 through November 29 except in Imperial County and eastern Riverside and San Bernardino. Shooting hours in this area, and in the rest of the state after November 29, will be from one-half hour before sunrise to one-half hour after sunset.

Sportsmen after pheasants will need a one dollar pheasant tag in addition to their regular hunting license.

Good news for ring-neck hunters is the fact that state pheasant co-operative areas have been increased from 150,000 to 234,000 acres this year, and that three co-ops have been opened for the first time in southern California. In addition, portions of six waterfowl management areas will be open for pheasant hunting.

Local Lodge Officer Will Install Group

Pearl Heller, deputy state organizer and royal advisor of Donner Council No. 13, Pythian Sunshine Girls, will leave Friday for Sacramento for institution of a new council at Carmichael on Saturday.

Another council at Highland will be organized November 27th.

CONFERENCE PLAN FOR SKI SEASON OUTLINED IN MEET

The fast approaching high school ski season was heralded last Saturday, with the meeting at Tahoe-Truckee High School of coaches and officials of the Sierra-Nevada Interscholastic Ski Federation. Representatives from Reno, Auburn, South Tahoe, Leevining, Bishop and Tahoe-Truckee met to set up a schedule for the coming season.

It was decided to have only one four-way tournament this season and that is to be designated as the official league championship. In addition to this tournament slated for March 10 and 11 at Leevining, there will be about six dual meets of two events eachh hosted by other conference schools.

The highlight of the meeting was the presence of A. B. Ingham, executive secretary of the California Interscolastic Federation, the governing body of interscholastic athletics. Ingham clarified some rules regarding high school ski competition and gave skiing a big boost when he disclosed that the new C.I.F. overall coverage insurance will cover competitive skiing.

Officers elected for 1954-55 were: president, Vernon Cline, Reno High School; vice-president, C. Gerald Hasty, Leevining High School; secretary-treasurer, Sheldon Varney, South Tahoe High School.

The local Wolverine Ski squad hopes to break back in the win column this winter after dropping last year's closely contested league championship to Leevining High School. The Tahoe-Truckee Ski squad, equipped with a great deal of new equipment including flashy racing parkas and bolstered by the talented slats of Lewis Fellows, Dick Mandeville, Bob Sach, Gary Anderson, Jay Stuart with help from newcomers, Ron Rau, Fred Wofford and Kit Schull, is looking forward to a banner season.

Under Treatment—
Ed Niell of Kings Beach was in the Tahoe Forest Hospital this week for a medical checkup.

To Roseville—
Mr. and Mrs. A. L. Davidson, wel known local couple, left for Roseville yesterday where he was transferred by the Southern Pacific Company.

Mrs. Hugh Smith Feted With Surprise Party

Mrs. Hugh Smith was feted at a surprise party given by Mrs. Lynn Kishbaugh on Friday evening. Gifts where held in an umbrella with pink and aqua predominating in the favors.

Invited to share the evening included Mesdames Ervin Johnson, Robert Madge, Everett O'Rourke, E. Buehler, Douglas Wilson, Misses Janice Buehler, Margaret Muir and out-of-town guests, Mrs. G. E. Marquardt of San Jose, Mrs. Mary Mendenhall of Walnut Creek, Mrs. Hugh Smith, Sr., of Scottsdale, Ariz.

Late Reports On Weather Are Confusing To Drivers

Tire chains were required for a brief time Monday on Donner Summit when a little more than two inches of snow fell. Radio and television reports are starting off the winter as usual by reporting storm and road conditions in this area from three days to a week late and only last night one announcer said the summit was covered with eight inches of new snow and added that it was still snowing.

Special Thanksgiving Service For Group Here

A special Thanksgiving service will be held by the Truckee Group of Christian Scientists at the Wyethia Clubhouse, Thursday, November 25, at 11 a.m. This service will include citations from the Bible and from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy. The Thanksgiving Day proclamation will be read, and time provided for expressions of gratitude and testimonies of healing experienced through the understanding and application of Christian Science.

A Bible reference in the Lesson-Sermon will be the following verse from II Corinthians: "Now thanks be unto God, which always causeth us to triumph in Christ, and make the manifest the savour of his knowledge by us in every place."

"To those leaning on the sustaining infinite, today is big with blessings." This opening sentence from the Preface of Science and Health will be among correlative pasages read on the subject "Thanksgiving."

Follow the Sun—
Mr. and Mrs. Greg Browne plan to leave here this week and follow the sun to Nevada and into old Mexico.

LEON POST AND HIS GUNMEN GAINED CONTROL OF MR. OGDEN'S COPPER MINE, FORCED TARZAN AND SOME NATIVES INTO SLAVE LABOR

...LEON POST GLOATED OVER THE DAILY PROGRESS. "KEEP IT UP, FRIEND, AND I CAN SOON TRANSFER THAT ORE INTO COLD CASH."

STRUTTING NOW, LEON TOOK LEAVE FOR ONE OF THE BUILDINGS. HE WAS ADMITTED BY A GUARD--

WHO KEPT VIGIL OVER MR. OGDEN AND HIS DAUGHTER. "WHY SO GLUM?" TAUNTED LEON--

HE GRASPED THE GIRL BY THE WAIST. "THE RAILROAD'S ALMOST FINISHED--SO HOW 'BOUT A REWARD, PRETTY PAT--"

PAT OGDEN RECOILED, EXPLODED VIOLENTLY. "SWINE!"

LEON SMOLDERED. "OKAY, BUT REMEMBER, OGDEN, IF THE ORE PROFITS ARE NOT SIGNED OVER TO ME--YOUR LOVELY DAUGHTER WILL DIE!"
